Better Systems!

Simply put, Run PC sells better designed systems; built with better quality components, professional assembled in the U.S, and backed to the hilt.

Computer technology changes daily, therefore, it makes sense that a personal computer should be designed with future upgradability in mind.

Unlike the hordes of consumer PCs (built by the millions, designed for the masses, and intended for obsolescence), every system Run PC sells is custom configured, designed for the individual, and built for the future. The result is a totally open-architecture PC built for your current needs, but ready for your future needs.

Because Run PC systems are custom-built using only the highest quality, industry-standard components from the world's best manufactures, quality, compatibility and upgradability are assured.

Only systems designed and built this well, could be backed this well...

Better Service!

Every Marathon System comes complete with a full 3 year parts and a lifetime labor warranty.²

Run PC provides our customers with more than just an excellent product at an affordable price. We include a lifetime of service and support!

Free Delivery¹ - We will deliver any full computer system purchased from Run PC within our local delivery area free of charge!

Free Installation¹ - Upon delivery, Run PC will install your new computer system in the comfort of your home, office or dorm free of charge!

Free Training¹ - Once set up, we will give you a grand tour of your new computer system and answer questions.

Lifetime Labor Warranty² - While other computer and electronic stores will try to sell you extended warranties or charge hundreds of dollars an hour for service, Run PC provides a lifetime of labor free of charge. If any component within your system ever fails, even after the original manufacturer's warranty has expired, Run PC will do the work for free, for as long as you own your computer!

Lifetime Upgrade Policy² - Every system Run PC sells is designed for upgradability, ensuring many years of enjoyment. If you ever want to upgrade or add new features to your system, simply purchase the part from any Run PC location and we will provide the labor for free!

Better Value!

When it comes to getting the most for your money, Run PC is where to go! Compare our everyday low prices for yourself. Then factor in the lifetime of included services and support, saving you hundreds more over our competition.

Using better quality parts and providing lifetime labor policies, the typical Run PC system has over twice the average usable life as a comparably priced prebuilt system: Resulting in a much lower cost of ownership.

¹ With complete System Purchase. Delivery area limited. Training and installation is limited to two hours total at the time of delivery.

² Warranties are based on carry-in service and exclude *Run PC Value Systems (Relay & Sprint)*.
