

Minimal footprint. Maximum power.

That's Genius.

Deliver a premium checkout experience with a modular countertop POS system built for speed, style and your business' busiest moments.

Sleek enough to blend in, sharp enough to stand out

Elevate your checkout experience and keep counters clutter-free thanks to a minimalist design.

Modular setup

Choose from multiple device configurations and accessories that adapt as your setup changes, making it easy to scale.

Fast, reliable performance

Genius keeps pace with complex, high-volume environments, so your team doesn't miss a beat.

Built for real-world conditions

Minimize disruptions with hardware that offers greater durability and higher uptime in demanding retail and restaurant settings.

Elegant design meets extraordinary power

Fast, flexible and future-ready, Genius countertop hardware devices are modular and adaptable to your unique setup and needs.
