Gain an edge with tech designed for retailers

Our developers turned years of first-hand experience into features that directly address pain points retailers like you face daily. Now, you can create POs from anywhere. Easily mitigate coupon fraud. Cut physical inventory time. That's how you change the game and compete.

Craft unique experiences that boost loyalty

Retail is about more than making a sale. Empowered with customer data captured at every touchpoint, your team can create personalized experiences that turn casual shoppers into loyal regulars.

Scale with confidence

Grow your business confidently with a flexible solution that scales with you and adapts to your evolving needs.

Enjoy flexible software and hardware

Choose from iOS or Android, with several options for sleek hardware and peripherals. With software built for both operating systems, plus a web version, you get a cost-effective solution curated for your unique retail strategy and needs.

Speed up checkout with secure built-in payments

Give customers the convenience they crave with payment processing built into your POS. They get a faster, more secure checkout, and you get to avoid errors that come from juggling multiple systems.

Take those payments anywhere — from a warehouse sale to popup trunk show — and delight shoppers with flexible payment options like digital wallets and split transactions.

Customize the perfect POS for your unique and growing needs

Your business doesn't fit in a box. That's why we give you the power to pick and choose integrations to build your dream store management system.
