

KEEP IT RUNNING

Managed IT Services for Small Business

Keep your servers, desktops, and laptops healthy so you can concentrate on growing your business. With our affordable month to month per system pricing it like having your own in-house IT department for **less than a dollar per day for each system**.

Team IT can help you avoid downtime and resolve issues before they become major problems. We'll know exactly when a problem occurs so we can respond promptly. We'll spot the nature of the problem, so we can fix it fast to keep your business up and running. All this and more without setting a foot in your place of business.

- Reduce downtime
- Improve system performance
- Overcome lack of in-house IT
- Automate system updates
- Protect your data
- Virus detection and removal
- Remote Backup and Recovery
- Web Content filtering

Improve your IT performance to grow your organization

Organizational performance can be affected by downtime, slow running PCs and out-of-date software. How do you ensure yours is running smoothly while concentrating on doing your day job? With Managed Services, everything is taken care of 24/7. Our service consists of five separate elements which you can build on offering peace of mind and enhanced performance.

MONITORING	MAINTENANCE	ANTI-VIRUS	WEB FILTERING	BACKUP	SUPPORT*
24/7 Health Check <i>Identifies issues to Keep your business running.</i>	Automatic Patches and Updates <i>Improves PC Performance and Security.</i>	Monitored Anti-Virus <i>Includes Virus Protection and detection.</i>	Control Web Browsing <i>Protects Against, infections, poor productivity and Downtime.</i>	Automatic Secure Off-Site Backup and Recovery. <i>Protect your critical data.</i>	Remote Assistance and Repair <i>Reduce costs & Downtime.</i>

No Minimum Purchase: Implement at your own pace.
